

## About Us

TGT China Cloud Data Services (Harbin) Co., Ltd. (TGT China Cloud) is co-founded by the subsidiary of the Management Committee of Harbin Economic-Technological Development Zone and Towngas Telecommunications Co., Ltd. (TGT), a wholly owned subsidiary of the Hong Kong and China Gas Co., Ltd. (Towngas). It has established indisputable reputation by quality services. As a leading domestic telecommunication service provider, TGT China Cloud is committed to providing carrier-neutral, green and world-class third-party commercial data centre services.

Situated at "China's Cloud Valley" in southern Harbin, the Data Centre is in accordance with the standard of TIA-942 Rated 3+ and GB50174-2008 (Grade A Data Hall) and various internationally recognised standards. Its world class infrastructure is signified with the flexible integrated electromechanical systems. TGT China Cloud provides a wide range of services, including colocation, custom data hall and disaster recovery, cloud computing services and value added services (operation outsourcing and IT consulting services).
